Enfield Town, market place 1950

## Key facts

We all live in England in UK. Our school is in Enfield which is a borough in the north of London.

The United Kingdom is made up of four countries—England, Wales, Scotland and Northern Ireland.

Enfield has lots of places to visit locally; libraries, swimming pool, shops, cinemas, and parks.

In Enfield we can travel around by bus, train, car or bicycles. We can easily travel into central London.

In Enfield there are physical features: River Lea, New River, Turkey Brook and King George V Reservoir.

Over the years Enfield has changed. More houses, shops and modes of transport have increased and made it a busier place to live.

In 1605 James I was King of England.

In 1605 the Gunpowder Plot was a plan to assassinate the King of England.

The plot was to blow up the House of Lords in London. The plot failed.

The leader of the plot was Robert Catesby. Guy Fawkes was the man in charge of the explosives.

Annually on November 5th people celebrate Fireworks or Bonfire night.

1605 Gunpowder plot
