

English

In English this half term we will be reading 'War and Peas' By Michael Foreman, this book will inspire us in our writing. We will be learning to make predictions about the story by using evidence from the text and describe character feelings and settings within the story.

We will also be writing in the first person to explore how characters are feeling. Using all of the above skills we will then retell the story from a character's point of view. We will also learn about features of instructions, for example how instructions have to be in order. They will use their knowledge to create their instructions on how to make their own breakfast.

Maths

In maths this half term we will begin by focusing on place value and ordering 2 digit numbers; moving on to adding and subtracting 2 digit numbers. We will be revising number bonds and linking these to related facts as well as using the < and > signs. We will be learning to identify properties of 3D shapes. We will begin to learn how to tell the time to the nearest quarter on analogue clocks.

Science

In science this half term we will be learning about what animals need to survive. We will be investigating the basic needs of animals, including humans for survival. We will be looking at why exercise is important and how we can stay fit and healthy. We will perform simple tests, gather and record data and use the data to answer questions that we have thought of.

Garfield Primary School

Topic

In our topic lessons this half term we will be doing Design and Technology—cooking and nutrition. In D&T children will look at the importance of hygiene as a human and also in a kitchen area. We will research different countries types of breakfasts, also researching different food groups. We will create a survey questioning each pupil in the class about what breakfast they have, using that information to create a class pictogram. We will taste different foods; evaluating the look, smell, taste and texture. At the end of the topic using all of their research the children will design, make and evaluate their own healthy breakfast.

In Ecology this half term we will investigate how growing food around our school and home can help the planet and develop a better understanding about how plants provide us with food.

Garfield Primary School

Curriculum Newsletter

Year 2 Spring 1

'How do we survive?'

Enrichment: Sunshine garden centre

PE: Monday and Thursday

Homework: home on Friday and returned to school by Wednesday

RE

In RE this half term we will be learning about Buddhism.. We will retell the story of Buddha. We will learn where Buddhists go to worship and explore through objects and artefacts how Buddhists show respect for their religion.

PSHE

In PSHE we will be discussing ways we could improve the diet of children in the school; looking at school dinners vs packed lunches. We will discuss the sustainability of growing our own food.

Suggested books to read

Oliver's Vegetables – Vivian French

Jim and the Beanstalk – Raymond Briggs

The little gardener – Emily Hughes

The last wold – Mini Grey

Cloudy with a chance of meatballs – Judi Barrett

Suggested places to visit

Local garden centres and grocery stores—find out where our food comes from and how it grows. Look at food labels. Science museum— understanding the body
