

Year 4

Summer 1 topic: How can we influence the future of our planet?

WORD	MEANING
recycling	Putting an item through a process so that the material it is made from can be used again.
planet	A large object that orbits a star.
plastic	A material that can change its shape. It does not rot away or decompose.
waste	Something that is thrown away and not used again.
reduce	To make something smaller or use less of it.
consumption	Using, buying or eating something.
emissions	Something that is released as part of a process.
